BENEFIT OF BB CREAM

What is:

BK BB CREAM is a multi-action hair treatment, with regenerative properties for the hair fiber, providing moisture, softness and incredible shine.

What it does:

BK BB CREAM is a leave-in treatment, enriched with vegetable proteins, which protect hair from UV damage. It also contains coconut and sunflower oils, to regenerate/preserve hair color, and flaxseed oil, with a high concentration of Omega-3, for improved malleability and anti-aging effect. Its smooth and highly conditioning consistency has immediate and cumulative action.

10 Benefits :

- 1- Vegetable butter for UV damage protection and hair color preservation;
- 2- Shine and softness, thanks to volatile silicone fluids;
- 3- Avocado oil, containing vitamins and lipids, which promote antioxidant action;
- 4- Coconut and sunflower oils, containing essential fatty acids, which are natural hair cuticle components, for hair strength;
- 5- Olive and Argan oils, which contain vitamin E, a powerful antioxidant against hair aging, caused by thermal, chemical and mechanical processes;
- 6- Flaxseed oil containing Omega-3, for hair moisture;
- 7- Macadamia oil for improved hair malleability;
- 8- Amino-functional silicone, which repairs damaged hair;
- 9- Hydrolyzed wheat protein, for hair mass restoration;
- 10- High molecular weight silicone, for anti-frizz effect.
